(b) Five demonstration wind farm projects of planned aggregate capacity 5.5 MW have been taken up at Mandvi and Okha in Gujarat; Tuticorin in Tamil Nadu; Puri in Orissa; and Deogarh in Maharashtra. Wind electric generators of 3.63 MW capacity have already been commissioned, and about 65 lakh units of electricity have been fed to the State grid.

(c) According to the paper prepared by the Department of Non-Conventional Energy Sources entitled "Energy '2001' prespective Plan", an installed capacity of 5000 MW for wind power generation could be realized by the end of the century, provided sufficient funds are allocated for this purpose.
